

## LET'S GO GREEN!

MUNICIPALITY  
VELENJE

Velenje City is a proud winner of the Bronze award

**Slovenia Green Destination**

Velenje is a green destination. Please help us keep it clean & tidy.

Shop locally at stores that sell Slovenian products.

Instead of exploring Velenje by car, discover the city by foot, bike or ride with Lokalc local bus.

Instead of walking on grass & picking flowers, admire wild flowering meadows that are pastures for native Slovenian bees.

# OPEN YOUR HEARTS TO GREEN HABITS

Buy "Šaleški biser" reusable bottle & drink water at drinking fountains in the city.

Enjoy nature & disconnect all electronic & other devices.

Help conserve water. Choose a shorter shower instead of a bath & close the tap while brushing your teeth.

Support local producers: farmers by ordering local ingredients, artisans - by purchasing their products and artists - by buying their artwork.

Choose soaps, cosmetics & other environmentally friendly cleaning products.

Help to maintain a delicate natural balance & walk on marked paths. Walking outside of a well-kept path can lead to a biotic imbalance.

Visit Velenje's museums, galleries, traditional events, cultural houses & collections. This is how you may contribute to the preservation of local culture and art.
